| Priory Rapid Recall Challenge: Step 6 (Orange) |  |  |
| :--- | :--- | :--- |
| Target | Double any number with up to 1 decimal place |  |
| Date set | Date achieved |  |
| Detail | This target is about being able to double a number with one decimal place, e.g. <br> Double 5.4 is 10.8 <br> You could: <br> $>$ Ask: Which number did you double to get the answer 3.8? How do you know? |  |

| Priory Rapid Recall Challenge: Step 6 (Orange) |  |
| :--- | :--- | :--- |
| Target | Halve any number with up to 1 decimal place |
| Date set | Date achieved |
| Detail | This target is about being able to halve a number with one decimal place, provided <br> that the digit after the decimal point is even, e.g. 6.8. <br> Half of 6.8 is 3.4 <br> This also includes halving whole numbers, e.g. <br> Half of 9.0 is 4.5 |
| You could: <br> $>$ Ask: If I halve 2.6 litres of juice into two jugs, how much juice in each jug? |  |

| Priory Rapid Recall Challenge: Step 6 (Orange) |  |  |
| :--- | :--- | :--- |
| Target | Know all decimals that total 1 and 10 (up to 1 decimal place) |  |
| Date set | Date achieved |  |
| Detail | This target is about building on earlier work linked to number bonds, i.e. knowing <br> the pairs of numbers which go together to make 10. This target requires children <br> to know the pairs of number that go together in order to equal 10 or 100; <br> including numbers with 1 decimal place, e.g. <br> $3.6+6.4=10$ <br> $2.8+7.2=10$ <br>  <br>  |  |
| $90.2+49.8=100$ |  |  |
| $95.1+4.9=100$ |  |  |

| Target | Recall multiplication facts up to $10 \times 10$ and use to multiply pairs of multiples <br> of 10 and 100 |  |  |  |
| :--- | :--- | :--- | :---: | :---: |
| Date set | Date achieved |  |  |  |
| Detail | This target is about using their knowledge of times tables up to $10 \times 10$ in order to <br> multiply larger numbers, e.g. |  |  |  |

If you know that $5 \times 5=25 \ldots$ then $5 \times 50=250 \ldots$ and $50 \times 50=2500$

You could:
> Ask: Which two numbers multiply together to give 4800?

Priory Rapid Recall Challenge: Step 6 (Orange)

| Target | Doubles and halves of 2 digit decimals |
| :--- | :--- | :--- |
| Date set | Date achieved |
| Detail | This target is about being able to double and halve numbers up to 2 decimal <br> places, e.g. <br> Double 13.36 is 26.72 <br> Half of 18.28 is 9.14 |

| Priory Rapid Recall Challenge: Step 6 (Orange) |  |  |
| :--- | :--- | :--- |
| Target | Know all decimals that total 1 (up to 2 decimal places) |  |
| Date set | Date achieved |  |
| Detail | This target is about knowing the pairs of numbers that go together to make 1. <br> This is really useful when dealing with money, e.g. |  |
|  | $0.27+0.73=1$ <br> $0.46+0.54=1$ <br> You could: <br> $>$ <br> Make links with money, e.g. how much change will I have from $£ 1$ if I spend <br> $29 p ?$ |  |
